

IN OUR CITIES: SPRINGBORO

ABOUT THIS PAGE

The city of Springboro offers a range of services to its residents and business community.

Each month in the Dayton Daily News, the Springboro City Page will highlight the people, programs and projects important to Springboro.

Questions about the information on this page should be sent to Springboro Community Relations Director Maureen Russell-Hodgson at maureen@cityofspringboro.com.

The city of Springboro named its snow plows for 2024 (see the Bengals-inspired "Snow Burrow" above) based on suggestions from residents.

City crews ready for snow; plows get special names

Contributed

Springboro's Public Service Department is ready for winter. Our crews work to provide quality services so motorists can safely travel our roadways. So, what is our process for clearing ice and snow?

First: Major arteries (State Route 73, State Route 741, Pennyroyal, Lytle-Five Points) are plowed first. We must keep roads clear for emergency vehicles, and conditions may require continued treatment.

Second: Once major arteries are cleared, our crews move on to main streets and through subdivisions.

Third: Residential streets, cul-de-sacs and courts will be serviced once the major arteries and main roads are cleared. Please help us by removing basketball hoops and parking your cars in the driveway. This allows the snowplows to better and more efficiently clean your streets so you can safely drive on them.

'Named' snow plows roll out for first snow

Snow-tastic news! Look for our newly named snow plows to come down your streets. We received 162 creatively frosty names of which 14 of the coolest

were selected to be placed on the trucks. A blizzard of applause to all those who participated!

Check traffic before you go

Check out live road conditions and traffic situations 24/7 from the city website. The city has three live-streaming traffic cameras at the following intersections: State Route 741 at Lytle-Five Points, State Route 741 and State Route 73, and State Route 73 at Drug Mart. Visit ci.springboro.oh.us and scroll down the main page under the "Calendar." Click on a camera location to see a live feed of the traffic.
